FIREPLACES™

FEATURED Zeta fireplace with detailed ceramic fiber logs

ZETA

In many homes, finding enough space to have a fireplace can be challenging. The Zeta is the perfect solution. It is a remote-ready gas fireplace that will take up very little room. The 10,000 BTU output is a perfect heat range to provide comfortable heat for one or two rooms. This fireplace is approved for bedroom applications. Custom sized cabinet mantels are available as well, in both wall and corner versions. Attractive red ceramic fiber liner and arched screen come standard.

Wood mantels in a variety of styles and finishes

FIREPLACE EFFICIENCIES

MODEL	FUEL	BTU/HR	AFUE*
ZETA	NG	10,000	99.9%
ZETA	LP	10,000	99.9%

*Annual Fuel Utilization Efficiency (AFUE) is the recognized U.S. rating system for the total efficiency of heating products.

IMPORTANT NOTES:

As with any heating appliance, fireplace or stove, this appliance is extremely hot during operation. Read and understand all operating instructions before using this appliance. For further information, consult your dealer.

Local conditions, such as elevation and choice of fuel will affect overall appearance of the fire and heating performance. Performance can also vary with home design and insulation, ceiling height, accessories chosen and appliance location.

Diagrams, illustrations and photographs are not to scale — consult installation instructions. Product designs, materials, dimensions, specifications, colors and prices are subject to change or discontinuance without notice.

Built to ANSI Z21.11.2 standard and approved by PFS Test Laboratories. Consult your distributor for local fireplace code information.
