*The tax credit equal to expenditures, up to \$300, is not an instant rebate or product discount. It is a tax credit provided by the IRS as part of the TRUIRJCA and is applicable when filing personal income taxes for the 2014 tax year. Please consult with a tax advisor or the Internal Revenue Code for more information. On December 19, 2014, the President signed into law the Tax Increase Prevention Act of 2014 (H.R. 5771). The bill reauthorizes, among other credits, the Sec. 25C tax credit for non-business energy property. Included in this section is the \$300 credit for residential biomass heating equipment. The bill simply moves the expiration date for this credit from December 31, 2013 to December 31, 2014.
